

Meeting Notice

Crooked Creek Watershed Planning – Initial Scoping Meeting

The Sargent County Water Resource District (District), in cooperation with the Natural Resources Conservation Service (NRCS) Watershed Operations Program, is initiating a watershed planning process for the Crooked Creek watershed. The watershed planning process will rely on local input and a project team of stakeholders to identify water-related concerns within the Crooked Creek watershed, such as overland flooding, delayed planting, crop damages, infrastructure failures, and water quality concerns, etc. Moore Engineering Inc. (engineering and technical assistance) and HDR Engineering (economic analysis assistance) will be assisting the District with the NRCS watershed planning processes. The District is hosting an agency scoping and public scoping meeting to start this planning process and comments can be shared at this meeting. The meeting information is noted below for both an in person meeting and a virtual connection option.

Crooked Creek Watershed Plan – Initial Scoping Meeting (In-Person)

Wednesday – Oct 13th

2:00 PM

Forman City Hall, 349 Main Street – Forman, ND
