- [§] If a child receives immunizations late, fewer doses may be required. Contact your local public health unit or the North Dakota Department of Health to determine the appropriate number of doses. Children ages five and older are exempt from the Hib requirement. Depending on vaccine brand the child may receive a series of three or four doses.
- [£] Children with a reliable history of chickenpox disease are exempt from the varicella requirement.
- [¶] If a child receives immunizations late, fewer doses may be required. Contact your local public health unit or the North Dakota Department of Health to determine the appropriate number of doses. Children age five and older are exempt from the PCV requirement.
- [#] Children who do not receive the first dose by 15 weeks of age can no longer receive this vaccine and are exempt from the Rotavirus requirement. Children ages eight months and older are exempt from the Rotavirus vaccination requirement.
- [¥] Rotavirus vaccine may be given as a two or three dose series depending on the brand of vaccine. The third dose of rotavirus vaccine may not be necessary depending on the brand of rotavirus vaccine given.
- ^{*} Children attending kindergarten may require more doses but these immunizations are not required to attend childcare.

Exemptions

Children may be exempt from immunization requirements for the following reasons:

- **Medical Exemption:** Requires a certificate signed by a licensed physician stating that the physical condition of the child is such that immunization would endanger the life or health of the child.
- **History of Chickenpox Disease:** Requires a certificate signed by the parent or guardian stating that the child has a history of chickenpox disease.
- **Philosophical, Moral or Religious Belief Exemption:** Requires a certificate signed by the parent or guardian whose sincerely held philosophical, moral or religious belief is opposed to such immunization.
