

**SARGENT COUNTY WATER
RESOURCE DISTRICT**

**Special Meeting
Public Informational Meeting
Rutland City Hall
Rutland, North Dakota
August 4th, 2025 – 6:30 p.m.**

The Sargent County Water Resource District conducted a public informational meeting at the Rutland City Hall in Rutland, North Dakota. In attendance at the meeting were Sargent County Water Resource District Board Members Vice-Chairman Michael Wyum and Bruce Speich; District Secretary Wendy Willprecht; & Nathan Trosen the Board's engineer from Moore Engineering. With regard to members of the public in attendance and virtual attendees, see the attached list of attendees.

Vice-Chairman Michael Wyum opened the meeting and stated that the purpose of the meeting was to explain that the Sargent County Water Resource District has received funding to perform a study of Drain No. 8, and to discuss current issues with the Drain along with potential study objectives. The Sargent County Water Resource District is looking to assessed landowners for a path forward of how the group would like to proceed. The District has no specific project in mind at this time.

Trosen presented a power point presentation regarding these various potential project options; the power point slides are on file with the Board's Secretary-Treasurer. Trosen reviewed the existing conditions of the Drain. The Sargent County Water Resource District wanted to know if the assessed landowners wanted the District to move forward with a study of Drain No. 8 to develop potential improvement alternatives for the drain.

By show of hands, a majority of the landowners chose to proceed with a study of Drain No. 8. Moore Engineering will proceed with the Drain improvement study. Once the study is complete, another public information meeting will be held with the assessed landowners.

APPROVED:

Michael Wyum, Vice-Chair

ATTEST:

Wendy Willprecht
Secretary-Treasurer
